BUSH VETERINARY
NEUROLOGY SERVICE

Welcome to Rockville
Dr. Lisa Lipitz, DACVIM (Neurology)!

Open for your chance to win a \$250 visa gift card!

We are very excited to announce that Dr. Lisa Lipitz has joined the BVNS team!

About Dr. Lipitz

Dr. Lipitz, a New Jersey native, received her undergraduate and Doctorate of Veterinary Medicine degrees from the University of Pennsylvania. She completed a small animal rotating internship at Tufts University in 2005. Following this academic training, Dr. Lipitz worked in private practice for three years as an emergency and critical care veterinarian at the Veterinary Specialty and Emergency center in Langhorne, Pennsylvania.

In 2008, Dr. Lipitz went on to complete her Neurology and Neurosurgery residency at the University of Wisconsin-Madison; she received her ACVIM Board Certification in June of 2011. Dr. Lipitz completed additional continuing education and earned her ACVIM Certificate of Neurosurgery Training in May of 2012. Prior to relocating to the Maryland/DC area, Dr. Lipitz worked as a staff Neurologist at a specialty and emergency hospital in Coral Springs, Florida. Dr. Lipitz is excited to join Drs. Bush and Cuff at the newly opened Hope Advanced Veterinary Center in Rockville, Maryland.

Dr. Lipitz enjoys lecturing and has given continuing education seminars to veterinarians as well as presented her research at the ACVIM conference. She has several publications to her credit in the areas of infectious brain disease, neoplastic brain disease and congenital spinal disorders.

Outside of work, Dr. Lipitz enjoys spending time with her husband Chad, their son Chase and lovable Labrador Retriever Keyes.

BVNS Rockville offers:

• EXPERIENCE

With a team of Board-Certified Veterinary Neurologists, we are privileged to help thousands of pets and their owners each year.

• ACCESSIBILITY

Just give us a call. We will gladly discuss any case.

• ADVANCED DIAGNOSTICS

On-site MRI.

• AVAILABILITY

We offer same day appointments.

• COMPLETE NEUROLOGY CARE

From spinal and brain surgery to long-term treatment of chronic neurologic symptoms, we cover it all.

ACROSS

2. This procedure is done to remove ruptured disk material in the back.
4. Dr. Lipitz is a native of this state.
5. The newest name in Neurology at BVNS.
6. Inflammation of the brain.
7. The superior advanced imaging choice for accurate diagnosis, treatment, prognosis, surgical planning and surgical review of diseases that affect the spinal cord.
8. Breed most commonly seen at BVNS.
9. This carries movement and sensory information between the brain and limbs.
10. This procedure is done to remove a herniated disk in the neck.
11. This event can be divided into three stages: Pre-Ictus, Ictus and Post-Ictus.

DOWN

1. Dr. Lipitz received her undergraduate and Doctorate of Veterinary Medicine degrees from this University.
3. Pets with this disease walk as if they are drunk because they side step, lean, or stumble to one side.
4. An involuntary, rapid and repetitive movement of the eyes—either horizontal (side-to-side), vertical (up and down) or rotary circular).
5. Signs of this disease are pain caused by stretching of the nerve roots and spinal cord lining and weakness and decreased proprioception which occur as compression inhibits signals between the brain and limbs.

*Complete this crossword and submit your answers to www.bvns.net/crossword.

All correct submissions will be entered into a drawing to WIN a \$250 Visa gift card for your practice. Contest ends July 31st at midnight.

GOOD LUCK!
